I received my basic Medical Degree in 2001. My career in Medicine started at Melaka Hospital in July 2001 where I completed a year of housemanship. I started my career in the Surgical Department since the year 2002 initially at Seremban Hospital and later at General Hospital Kuala Lumpur.

I proceeded to pursue the Masters in Surgery, which I had completed in May 2009. I served as a General Surgeon from 2009 to 2010 at General Hospital Kuala Lumpur.

I joined Urology training on the 1<sup>st</sup> of April 2010 and passed the conjoint board and fellowship examinations in November 2013. I further pursued a fellowship in Advance Minimally Invasive Surgery for 6 months at Uniklinikum Tubingen, Germany which I completed in February 2015.

Since my return from Germany I have reported to the Faculty of Medicine and Health Sciences Universiti Putra Malaysia (UPM)/Serdang Hospital and appointed as Consultant Urological Surgeon.

I have a special interest in Uro Oncology and conduct all major Uro Oncology cases laparoscopically as well as open surgeries. Serdang Hospital is a major centre for Urology stone work in the southern region of Klang Valley. We have a high volume of stone cases which makes it an ideal centre for complex Endourology stone work.

I have been appointed as a board member of the Training and Credentialing committee of the Malaysian Board of Urology. The board looks into management, training as well as recruitment of all new trainee Urologists in Malaysia.

I am Senior Lecturer and Associate Professor at Department of Surgery, Faculty of Medicine and Health Sciences UPM since 2009, where I conduct lectures, bedside teaching and tutorials for medical students. I am involved regularly as examiner for final year M.D Professional exam since 2010.

I am also involved with the training of Masters of Surgery (University Kebangsaan Malaysia and University Malaya) students who have their subspecialty rotations at General Hospital Kuala Lumpur.

In 2017, I'm appointed as Council Member for Malaysia Medical Council. The Council is a supreme body and makes all policy decisions for Malaysian Doctor and Specialist.

## Procedure Performed:

- Performed complex Uro Oncological surgical procedures
  - TURBT with both monopolar and bipolar systems
  - Radical Open Cystectomy with extended Lymph node clearance and reconstruction with either ileal conduit or neo bladder (bladder cancer patients)
  - Radical Nephrectomy, open and Laparoscopically
  - Partial Nephrectomy (Nephron Sparing surgery)
  - Radical (open) Prostatectomy with Lymph node clearance
  - Total or partial penectomy with reconstruction of perineal urtherostomy for patients with penile cancer. Inguinal Lymph node clearance for related cases
  - High inguinal Orchidectomy for patients with testicular cancers
  
- Laparoscopic Skills
  - Laparoscopic Nephrectomy
  - Laparoscopic excision of renal cysts
  - Laparoscopic Pyeloplasty
  - Laparoscopic ligation of varicocele
  - Laparoscopic excision of Lymph nodes
  - Laparoscopic diagnosis of undescended testis
  
- Able to perform all Endourology procedures
  - Flexible and Rigid cystoscopy, diagnostic and therapeutic
  - URS- rigid diagnostic and treatment of stone with either laser or pneumatic lithotripsy
  - PCNL- trained in both mini PCNL and conventional techniques (currently a PCNL trainer for trainee Urologist)
  - Retrograde Intra renal surgery (RIRS), diagnostic and therapeutic
  - Vesicolithotripsy of bladder stones
  - Endoscopic treatment of Ureteric/Urethral strictures, eg Laser endopyelotomy, laser endo ureterotomy and balloon dilatation
  - CE Internal uretherotomy
  - Perform various techniques of TURP
    - Monopolar TURP
    - BiPolar TURP
    - Laser TURP

- Emergency urology- trained to manage all Urological emergencies including trauma
- Paediatric Urology surgical skills
  - Paeds endourology – diagnostic and stone management
  - Congenital Anomalies
    - Open Pyeloplasty
    - Distal Hypospadiasis repair
    - Posterior Urethral valve Excision
    - Uretric reimplantation for high grade VesicoUretric reflux
- Other Urological surgeries – able to perform all basic urological surgeries
- Able to use most ESWL machines (Fluoroscopy/Ultrasound)

#### **Other Educational Activities**

- 1. Appointed as a board member of the Training and Credentialing committee of the Malaysian Board of Urology. The board looks into management, training as well as recruitment of all new trainee Urologists in Malaysia**
2. Examiner for the year 3 and 5 medical undergraduates for surgical end of posting examinations.
3. Regular Examiners for the final MD undergraduate examinations.
4. Coordinator for Urology posting (Final Year MD programme)
5. Supervising and coordinating Surgical Journal Club.
6. Supervising and coordinating UPM Postgraduate Revision Course.
7. Supervising monthly departmental research proposals.
8. Marking examination papers for undergraduate and postgraduate medical and surgical students.
9. Preparing examination questions for medical undergraduates MD programme.
10. Lectures and tutorial for Urology nurses.
11. Regular presentations at Clinico-Pathological-Conferences at faculty level.
