

## Short biography

Nur Raihana Ithnin, DR.

BSc. (Biotechnology) (UM), MSc. Medical Parasitology (UPM), Ph.D Parasitology (University of Glasgow, UK)

She was graduated in her first degree from Universiti Malaya in 2008. Later, she received her Master in Medical Parasitology in 2013 from Universiti Putra Malaysia. She joined Universiti Putra Malaysia in 2011 as a tutor. This position allows her to continue study to Ph.D. level which was obtained in 2019.

She is currently a senior lecturer in Department of Medical Microbiology, Faculty of Medicine and Health Sciences, UPM. Her research is mainly focused on the protozoa parasites which can be found in the environment and involves in research related to opportunistic parasitic infection. She also interested to further investigate on the mechanism of how the protozoa can be survive in the host and environment and identify their mode of actions through metabolic profiling. She is a member of Malaysian Society of Parasitology and Tropical Medicine and British Society of Parasitology.
