

SHORT BIOGRAPHY

Dr. Thong Pui Ling is a Senior Lecturer at the Faculty of Medicine and Health Sciences, Universiti Putra Malaysia (UPM), and a Paediatric Gastroenterologist and Hepatologist at Hospital Sultan Abdul Aziz Shah (HSAAS), UPM. She is dedicated to providing specialised care for children with gastrointestinal, liver and nutritional disorders while actively contributing to undergraduate and postgraduate medical education.

Dr. Thong's research interests focus on paediatric gastroenterology, hepatology, nutrition and inflammatory bowel disease, with a particular emphasis on improving clinical outcomes through translational and evidence-based research. She has authored numerous publications in peer-reviewed international journals and regularly presents her work at national and international scientific meetings. In addition to her clinical and research responsibilities, she is actively involved in multidisciplinary collaborations, clinical trials, academic supervision and professional service, reflecting her commitment to advancing paediatric healthcare and medical science in Malaysia.

BIOGRAFI PENDEK

Dr. Thong Pui Ling ialah seorang Pensyarah Kanan di Fakulti Perubatan dan Sains Kesihatan, Universiti Putra Malaysia (UPM), serta Pakar Gastroenterologi dan Hepatologi Paediatric di Hospital Sultan Abdul Aziz Shah (HSAAS), UPM. Beliau berdedikasi untuk menyediakan penjagaan khusus bagi kanak-kanak yang mengalami masalah gastrousus, hati, dan pemakanan, di samping aktif menyumbang kepada pendidikan perubatan prasiswazah dan siswazah.

Minat penyelidikan Dr. Thong tumpu pada bidang gastroenterologi paediatric, hepatologi, pemakanan, dan penyakit radang usus, dengan penekanan khusus untuk meningkatkan hasil klinikal melalui penyelidikan translasi dan berasaskan bukti. Beliau telah menghasilkan pelbagai penerbitan dalam jurnal antarabangsa bersemaan rakan sebaya dan kerap membentangkan hasil kerjanya di mesyuarat saintifik peringkat kebangsaan serta antarabangsa. Selain tanggungjawab klinikal dan penyelidikannya, beliau aktif terlibat dalam kolaborasi pelbagai disiplin, kajian klinikal, penyeliaan akademik, and khidmat profesional, yang mencerminkan komitmen beliau dalam memajukan penjagaan kesihatan paediatric dan sains perubatan di Malaysia.
